📍 Kathmandu, Nepal

EDUCATION

Institute of Engineering, Pulchowk Campus

Tribhuvan University, Lalitpur, Nepal

Bachelor of Civil Engineering (2021 – 2026)

Relevant Coursework:

Structural Engineering, Geotechnical Engineering, Hydrology, Environmental Engineering, Engineering Mathematics

SOS Hermann Gmeiner Higher Secondary School

Gandaki, Pokhara, Nepal

Science Faculty (2019 – 2021)

Dhawalagiri Boarding School

Kaski, Nepal

Primary & Secondary Education (2006 – 2019)

MAJOR ACHIEVEMENTS & HONORS

- 🏆 Winner – Sankalpa-2025 Model Making Competition
- 🏆 Winner – Cross Connect Clash, *Nirmaan ISCE 2025, India*
- 🏆 1st Place (Gold) – Civil Engineering Hackathon
- 🏆 1st Place (Gold) – National-Level Ideathon
- 🏆 1st Place (Gold) – Mix Design Competition (Orbit Expo)
- 🥈 2nd Place (Silver) – Geotechnical Model Competition
- 🥈 2nd Place (Silver) – Mix Design Competition (KEC)
- 🥈 2nd Place (Silver) – Model Competition (Thapathali Campus)
- 🥉 3rd Place (Bronze) – Model Competition (KEC)
- 🏆 Popular Choice Award – LOCUS
- 🎓 Attendee – Nepal Geotechnical Society (NGS) Conference

RESEARCH EXPERIENCE

Journal-Submitted & Funded Research

Deciphering Groundwater Dynamics of Kathmandu Valley:

Insights from Soil Characteristics Hydraulic Conductivity Rainfall data and Landuse Land Cover

- Submitted to the Groundwater for Sustainable Development
- Selected for funding by Nepal Academy of Science and Technology (NAST)
- Supervised by Asst. Prof. Bhim Kumar Dahal, PhD.

Ongoing Research

Determining Allowable Exposure Time for Un-Stabilized Road-Cut Slopes in Mountainous Terrain Under variable rainfall, soil, slope, and groundwater conditions

- Funded by: Nepal Academy of Science and Technology (NAST)
- Already collected field data of 25 Landslides
- Supervised by Asst. Prof. Arun Paudel

Comprehensive Analysis of the Gyapche Landslide, Nepal: Slope Stability Assessment, Runout Simulation, and Susceptibility Mapping

- Funded by: Nepal Flying Labs
- Expected to finish by March, 2026
- Supervised by Asst. Prof. Dr. Basanta Raj Adhikari

Economic Feasibility & Cost Analysis of Managed Aquifer Recharge in Kathmandu Valley (MAR)

- Starting phase with 4 number of teammates
- Supervised by Asst. Prof Mahendra Raj Dhital

PROJECTS

- Smart Traffic Management System
Computer vision and signal-processing-based system for real-time traffic flow estimation
- Groundwater Discharge & Infiltration Modeling – Kathmandu Valley
Numerical modeling of groundwater dynamics and recharge behavior
- EcoScan App (Concept Development)
Developed a concept note during Please Hack focusing on environmental monitoring and sustainability

LEADERSHIP & RESPONSIBILITY

Former President – SOKES (Society of Kaski Engineering Students), 2081

- Successfully conducted the society's regular Welcome and Farewell Programs
 - Initiated and organized the first-ever Stand-Up Comedy Competition at Pulchowk Campus
 - Conceptualized and executed the first-ever non-welcome/farewell flagship event of the society, expanding student engagement beyond conventional formats
 - Class Representative – 3 Semesters
 - Acted as a liaison between students and faculty, supporting academic coordination and student welfare
 - Coordinator – Civil Talk Series 2081 (*Pre-event of Aadhar-2081*)
 - Volunteer – CESS Alumni Meet 2080
 - Member – Kathmandu Valley Leo Club
-

COMPETITIONS & PARTICIPATION

- Shark Tank Civil – *Nirmaan ISCE 2025, India*
 - Carbon Quest – *Nirmaan ISCE 2025, India*
 - Please Hack and Save Our Rivers and Seas
 - CESS Cup
 - Paper Bridge Competition
-

EXPERIENCE

Researcher

- Selected in HydroLab, University of Cincinnati (2025)
- Selected in Kathmandu Valley GeoLab, Collaboration of IOE, Pulchowk Campus and Duke University (2025)
- Selected in Multi Hazard Risk Assessment Lab (ongoing)

Intern

CodSoft

- Worked on programming, data handling, and technical problem-solving
-

TECHNICAL SKILLS

Programming & Data Science

- Python, Pandas, NumPy, GeoPandas
- Scikit-learn, TensorFlow, Keras
- Matplotlib

GIS & Modeling Tools

- QGIS, ArcGIS map/pro, Grass Gis
- r.avaflow (Expert)

Structural & Drafting Tools

- ETABS, AutoCAD, Sketchup

Web & Utilities

- HTML, CSS, C Programming
- LaTeX, Visual Studio Code

Civil Engineering Applications

- Property Valuation
 - Professional Valuation Report Writing
 - Rate Analysis & Cost Estimation
-

RESEARCH INTERESTS

- Groundwater Modeling & Managed Aquifer Recharge
 - Landslide Modeling & Slope Stability
 - Climate-Induced Geohazards
 - Data Science & Machine Learning in Civil Engineering
-

CURRENTLY LEARNING

- Advanced Python for Data Science
 - Advanced GIS Applications
 - Research & Technical Writing using LaTeX
-
